

BONDERITE®

Cost efficiency in Cleaners and Lubricants

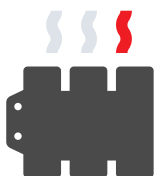

\$2,250,000,000

ESTIMATED CUMULATIVE SAVINGS AND COUNTING

**Yes, you can cut cost
and increase performance**

Our products reduce costs in your production process by lowering energy use, product consumption, inventory and process waste — while increasing corrosion protection, tool life and overall process efficiency.

Your dollars go farther, last longer and work harder with Henkel Cleaners and Lubricants because ROI and superior performance are designed right in.

ENERGY

Lower energy costs due to lower operating temperatures

PRODUCT CONSUMPTION

Lower dragout and bath recyclability

INVENTORY

Versatile formulations reduce inventory and shipping costs

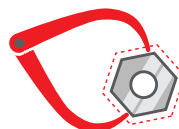

PROCESS FOOTPRINT

Smaller process footprint due to reduced process steps.

OPTIMIZED APPLICATION

Optimizing the process and product application to reduce waste.

SCRAP/WARRANTY

Reliable corrosion protection and consistent quality

TOOLING

Improved cleanliness and lubricity for longer lasting tooling

Smart solutions start with the right formula

Henkel's leadership and capability in Cleaners and Lubricants provides access to global reach, 140 years of expertise, and extensive product range – plus cost efficiency and sustainability – helping you create the ideal solution for your metalworking and production challenges.

Our cost efficiencies begin with products designed for superior performance. They improve your returns through savings in materials, management and warranty claims while increasing part protection and tool life.

Got a production cost-efficiency problem? Henkel has a solution.
