

Extensive expertise in Cleaners and Lubricants

140

YEARS

Experience is the best teacher, and we're at the head of the class

Nearly a century and a half of experience solving customer challenges makes us the product development pacesetter. Our seasoned Cleaners and Lubricants team proves our expertise every day with the results they achieve for you.

Expertise means finding new ways to solve challenges and improve results.

5X BATH LIFE

CUTTING

bio-resistant formulations mean up to 5x longer bath life

GRINDING

better wetting and cleaning yields up to 25% longer grinding wheel life

CLEANING

improved oil rejection increases bath life up to 4x

FORGING

smallest graphite particle size makes the biggest difference

SIMPLIFY

COLD FORMING

reactive polymer technology reduces process steps from 10 to 3

CASTING

infrared imaging improves production quality and reliability

LUBRICATION

new solutions recycle cleaner bath waste into the lubricant bath

ASSEMBLY

proper cleaner selection improves adhesive bond strength up to 10%

Smart solutions start with the right formula

Henkel's leadership and capability in Cleaners and Lubricants provides access to global reach, 140 years of expertise, and extensive product range – plus cost efficiency and sustainability – helping you create the ideal solution for your metalworking and production challenges.

Our expertise runs deep not just because of our long history, but also because of our dedicated and experienced team. We have more than 450 people ready to support your Cleaners and Lubricants needs – from sales, marketing and management to product development and technical service. **No matter how complex your process, Henkel can support better, more efficient and more effective manufacturing.**
